## BRIGHT CHILD-CHILD DEVELOPMENT CENTER

110-6th Avenue North, Princeton

[WWW.BRIGHTCHILDCDC.COM](http://WWW.BRIGHTCHILDCDC.COM)

TELEPHONE: 763-389-4576

INFO@BRIGHTCHILDCDC.COM

Children at Bright Child enjoyed a fun-filled summer of learning, playing, and exploring. In June, children went to the Minneapolis Children's Museum and rode the railroads around Sodor with Thomas the Train. In July, we played in the Maple Grove indoor maze and splash pools. In August, we visited the county fair and enjoyed an evening at the Splash Park! Thank you to the Princeton Book and Bible and the Library for hosting many fun events in which our students looked forward to and participated with enthusiasm.

Our talented teacher of the month is Amy Evans. She has worked for us almost 2 years (throughout the summer and holidays) as our school-age teacher. Amy has lived in Princeton for 17 years and worked with children for over 20 years.

"This summer, my best memories were made on our outings (which we take each week to different parks). I get the chance to have conversations with the kids on our walks while teaching lessons along the way. The kids have been troopers on these adventures. In the classroom, we build on basic skills, and keep their minds engaged, so we set a standard that children will follow during the school year. We incorporate different stations every day to keep learning fun and interesting. For children going into kindergarten this fall, it is great preparation for what is to come!"

We are proud to have Amy on our team! We invite you to come and tour the brightest center in Princeton so you can meet Amy and the rest of our dedicated staff! In the fall, staff will transport children to and from ECFE preschool classes if you want your child to have extra practice with basic skills! We want to equip your children with the best early learning opportunities because "BRIGHT BEGINNINGS LEAD TO EVEN BRIGHTER FUTURES!"

## Civic Betterment Club

Our summer is officially over this month as the fairs are done, school begins and the first day of Autumn arrives. We start our 2014-2015 year with a meeting on Wednesday, September 17, at 10 a.m. in the back room of K-Bob. Please note that we have changed our meeting day and time. All are welcome to come.

Our club has planted a garden in front of the Civic Center, with members Joanne, Gloria, Genny, Judy, Char and Maureen, many volunteers, Lions (Pete & Rev. Bob) with the Leos, Girl Scouts and Troop leader Denise. Bob from PUC helped and had the area tilled up and is continuing to water our plants. Our thanks go out to all who helped make it happen. The Hostas and Lily of the Valley donated by Marge Christensen, Rock donated by Jeremy's Lawn Service, Landscape screening donated by SRW Products. Thank You. The Civic Center held the Girl Scout Award Ceremony to honor Samantha Janssen as her writing was about the History of our Civic Center. Congratulations Samantha. Great job. The Center was open for a tour of renovations now underway.

Our club lost another member and friend in July with the passing of Tiny Lingle. She was truly a dedicated member with contributions to the club over the years. She was always willing to chair a committee, be a member of the Executive Board, or work on a committee that needed help. She will especially be remembered for all her work with the American Red Cross Blood Bank and the puppet shows she put on for Santaville at the Civic Center. She was the First Distinguished Member in 1982, and her name will be added to our Memorial Plaque in the Princeton Cemetery.

Members will be assisting with the American Red Cross Blood Bank at Trinity Crossings on September 15.

We look forward to a fun filled year. Join us! Please call Genny Reynolds with any questions 763-389-4613.

# FINANCIAL FOCUS:

## Protect Your Retirement against Market Volatility

As an investor, you're well aware that, over the short term, the financial markets always move up and down. During your working years, you may feel that you have time to overcome this volatility. And you'd be basing these feelings on actual evidence: the longer the investment period, the greater the tendency of the markets to "smooth out" their performance. But what happens when you retire? Won't you be more susceptible to market movements?

You may not be as vulnerable as you might think. In the first place, given our growing awareness of healthier lifestyles, you could easily spend two, or even three, decades in retirement – so your investment time frame isn't necessarily going to be that compressed.

Nonetheless, it's still true that time may well be a more important consideration to you during your retirement years, so you may want to be particularly vigilant about taking steps to help smooth out the effects of market volatility. Toward that end, here are a few suggestions:

- Allocate your investments among a variety of asset classes. Of course, proper asset allocation is a good investment move at any age, but when you're retired, you want to be especially careful that you don't "over-concentrate" your investment dollars among just a few assets. Spreading your money among a range of vehicles – stocks, bonds, certificates of deposit, government securities and so on – can help you avoid taking the full brunt of a downturn that may primarily hit just one type of investment. (Keep in mind, though, that while diversification can help reduce the effects of volatility, it can't assure a profit or protect against loss.)

- Choose investments that have demonstrated solid performance across many market cycles. As you've probably heard, "past performance is no guarantee of future results," and this is true. Nonetheless, you can help improve your outlook by owning quality investments. So when investing in stocks, choose those that have actual earnings and a track record of earnings growth. If you invest in fixed-income vehicles, pick those that are considered "investment grade."

- Don't make emotional decisions. At various times during your retirement, you will, in all likelihood, witness some sharp drops in the market. Try to avoid overreacting to those downturns, which will probably just be normal market "corrections." If you can keep your emotions out of investing, you will be less likely to make moves such as selling quality investments merely because their price is temporarily down.

- Don't try to "time" the market. You may be tempted to "take advantage" of volatility by looking for opportunities to "buy low and sell high." In theory, this is a fine idea – but, unfortunately, no one can really predict market highs or lows. You'll probably be better off by consistently investing the same amount of money into the same investments. Over time, this method of investing may result in lower per-share costs. However, as is the case with diversification, this type of "systematic" investing won't guarantee a profit or protect against loss, and you'll need to be willing to keep investing when share prices are declining.

It's probably natural to get somewhat more apprehensive about market volatility during your retirement years. But taking the steps described above can help you navigate the sometimes-choppy waters of the financial world.
